Purchase and download Process

How to purchase a subscription:

The direct link to Skyforce Online is https://wingmanservices.bendixking.com/wingman/skyforce.do

1. Once logged in, click on **Purchase Subscription** link which takes you to order screen.

2. You can purchase multiple subscriptions at one shot. Select Region/Coverage for Navigational database.   Choose your count from the price table. You can purchase additional products like Cartography, Topography, Software (Camera enabled and disabled versions are available). Please note these selections are independent and you can pick based on your need.

Purchasing a Subscription

Sentinel-Navdata

How to download:

1. If you are new Sentinel / Observer USB stick user, you need to register the USB stick to your Sentinel / Observer hardware.

2. Insert the USB stick in your computer.

3. Login in to Skyforce website https://wingmanservices.bendixking.com/wingman/skyforce.do (if not already logged in). Click on

   Download Updates click to launch the download tool.

4. If your USB stick is not initialized with Sentinel / Observer hardware please go through the product manuals for initialization process. Either our USB stick is not initialized or not inserted properly into your computer you will see the below error message.
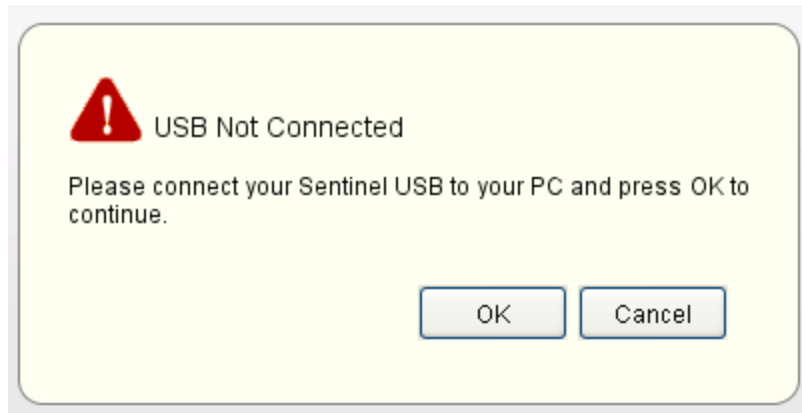

5. Please note: If you do not have the latest Java application. There will be a pop up requesting an update to the latest version of JAVA onto your computer. Please follow the JAVA instructions to update your PC.

6. Please be patient while the application initializes. This could take up to 5 minutes depending on your computer and network speed. Click on [No] if you happen to receive the below security warning.
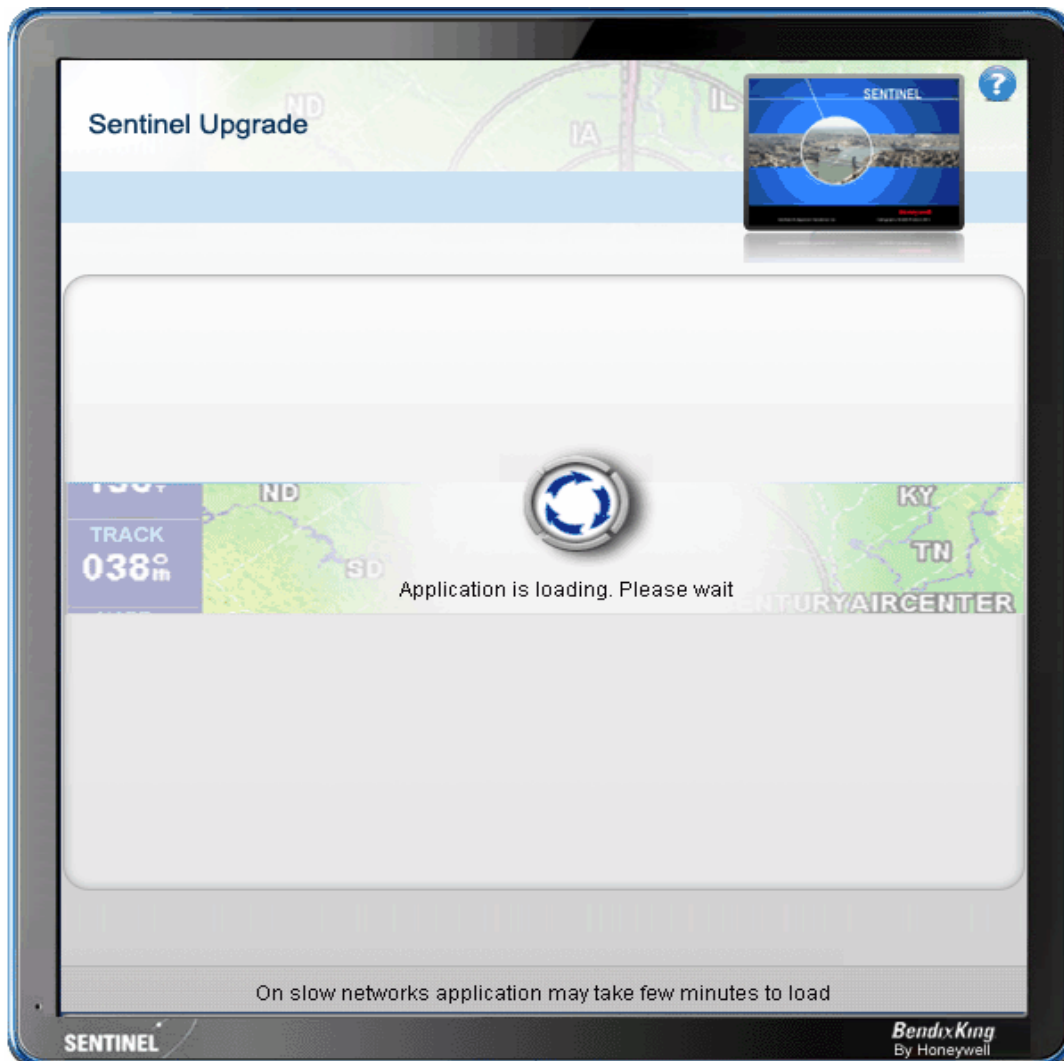

7. Once initialized, your page may appear as seen below if you subscribed to any of the Sentinel Products. If you did not subscribe, please proceed to step 6. If you intend to update your current subscription, choose your selection and click on the box to the right in the Assign to Current Device column then click Continue. (if you have only one subscription of that type, it will come as selected by default as appearing in the below image)

Select all Updates ☑   [Apply Updates]
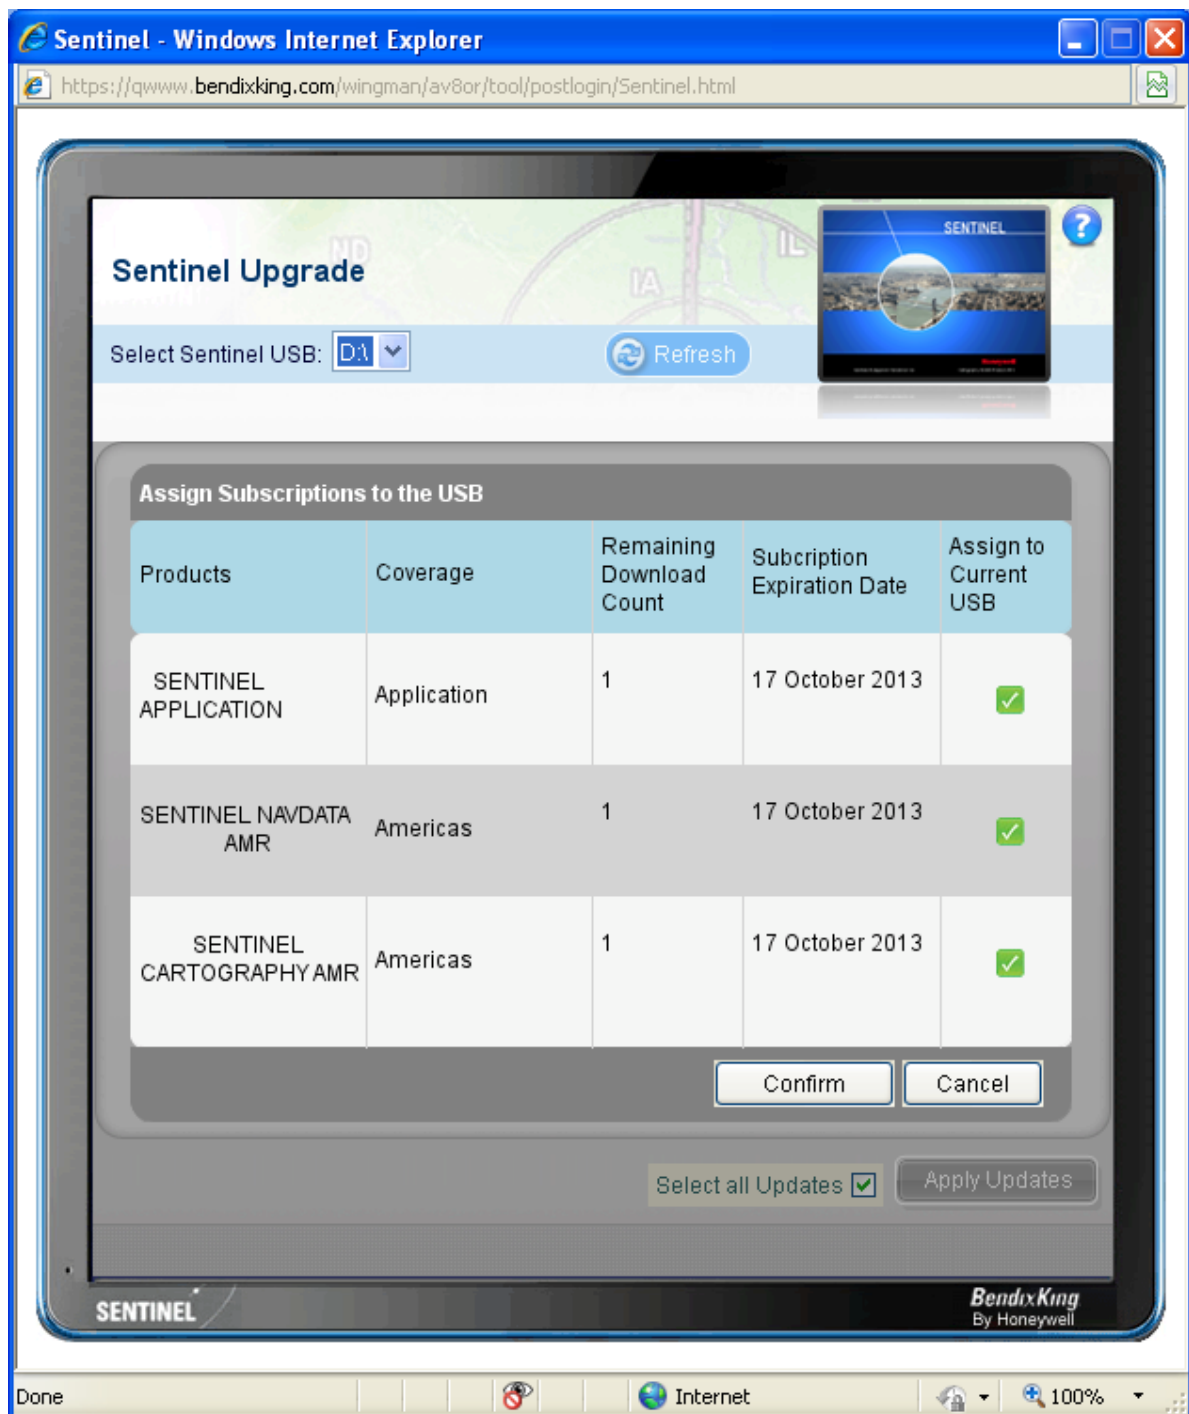

6. Compare the Available for Download number to the Currently Installed number or open the release notes in the Available for Download column to help you decide. Please note, there is a + sign for Sentinel Database. If you click the plus sign, it will expand and scroll down to view additional items. Once you have determined your install, choose the update in the Download

List by checking the box to the right in the Install column and click Apply Updates or you could click on the Select all Updates to check all items and click Apply Updates.
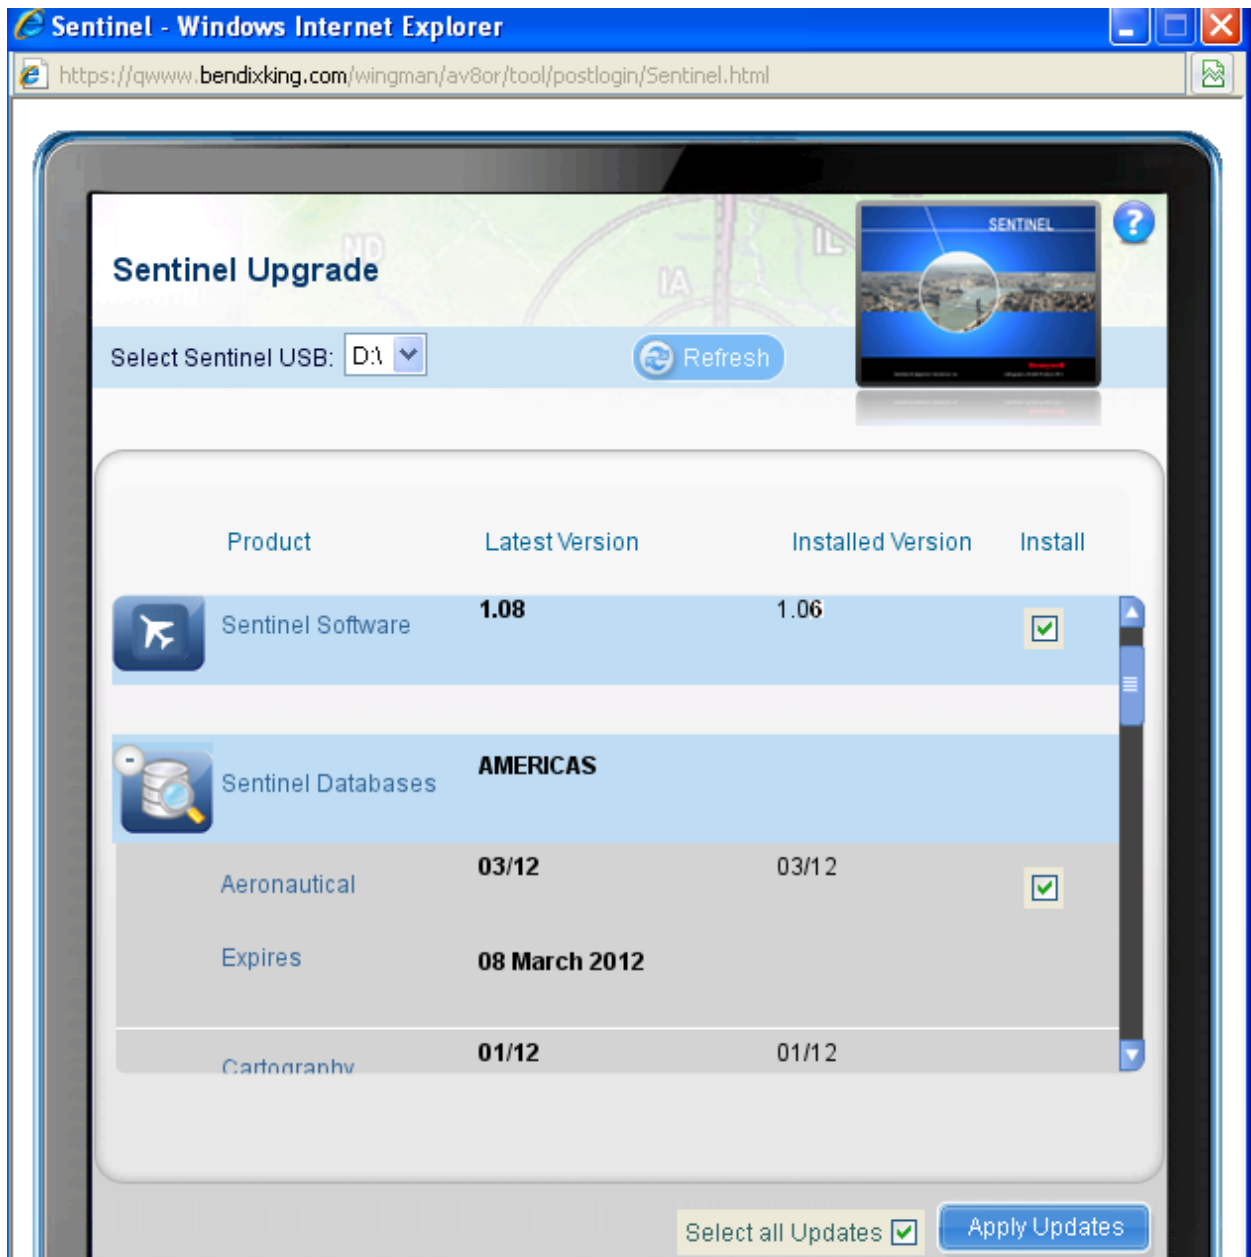

8. Depending on your computer and internet connection, this process may take up to 20 minutes. During the install, there is a message below as well as a Caution logo in yellow. This indicates the unit is in the process of downloading. Please wait until all downloads are complete before disconnecting the USB. In the event that the connection was lost during the download, simply start over from Step 3.
