# Bendix/King AV8OR ACE™ Charts and Plates Quick Start Guide

Before using your new Bendix/King AV8OR ACE™...  
**Update your charts and plates for FREE!**

Your new Bendix/King AV8OR ACE™ has been pre-loaded with a complete set of scanned FAA Enroute Charts (Low and High Altitude) and Instrument Approach Procedures (including Airport Diagrams) for all 50 US states.

**GET YOUR FREE UPDATE NOW!**

The charts and plates delivered on your AV8OR ACE™ may be expired. Please go to: <http://www.SeattleAvionics.com/AV8OR> for a free, one time update of current charts and plates for your AV8OR ACE™.

**DON'T FORGET TO UPDATE YOUR CHARTS AND PLATES**

**Go to:**

<http://www.SeattleAvionics.com/AV8OR>

**1** Your new Bendix/King AV8OR ACE™ unit has been pre-loaded with a complete set of scanned FAA Enroute Charts (Low and High Altitude) and Instrument Approach Procedures (including Airport Diagrams) for all 50 US states.

**2** The charts and plates delivered on your AV8OR ACE™ may be expired. Go to: <http://www.SeattleAvionics.com/AV8OR> for a free, one time, update of current charts and plates for your AV8OR ACE™.

**3** All of these charts and plates are “geo-referenced,” allowing your plane to be displayed, while flying, on your scanned charts, approach plates, or taxiing on the airport diagrams on your AV8OR ACE™ unit.

**4** Both the pre-loaded geo-referenced charts and plates, and the complimentary one time update is provided courtesy of Seattle Avionics Software and Bendix/King. For more information go to: <http://www.SeattleAvionics.com/AV8OR>

**5** Seattle Avionics Software is also offering its award-winning, advanced flight planning software; Voyager SmartPlan Premier, at a significant discount to Bendix/King AV8OR ACE™ customers. Please see inside for details.
