GPS Loader - Side by Side Error Message

The side by side error is a Microsoft created error, indicating the installation of the Windows Operating System is incomplete. It is missing a runtime component of Visual C++ required to run applications developed with Visual C++.

Attached is a link to a Microsoft Downloads site to download and install "Visual C++ 2008 Redistributable Package (x86)" and "Visual C++ 2010 Redistributable Package (x86)".

> Visual C++ 2008:
> http://www.microsoft.com/en-us/download/details.aspx?id=29
> Visual C++ 2010:
> https://www.microsoft.com/en-us/download/details.aspx?id=5555

There is an x86 and a x64 version.
- The x 86 is for 32 Bit programs.
- The x64 is for 64 Bit programs.

The GPS Database Loader is a 32 Bit program. You must have the "Visual C++ 2008 Redistributable Package (x86)" as a minimum.

Download the "Visual C++ 2008 Redistributable Package (x86)" and "Visual C++ 2010 Redistributable Package (x86)" and install them.

Then, the GPS Loader Program will open and operate properly.
