

## Navigation Database Production

Honeywell Inc.  
21111 N 19th Ave  
Phoenix, Arizona 85027

*Date* : 17 May 2017  
*Subject* : FMS upgrade for GNS\_PRNAV Customers  
*Impacted* : GPE, GPR, GPW

### NOTICE TO GNS PRNAV CUSTOMERS REGARDING FMS UPGRADE

Customers presently subscribing to GPE, GPR and GPW PRNAV databases, corresponding to FMS Software Part No 17960-0103, 17960-0204, and 18355-0102, do not have procedures that have RF Legs (Radius to Fix Legs) as these procedures cannot be handled by the PRNAV FMS.

An upgraded version of PRNAV with FMS Part No 17960-0103-SM04, 17960-0204-SM03, 18355-0102-SM04 is available, which are capable of handling procedures with RF legs. Consequently, three databases PRE, PRR and PRW, with the same coverage, have been set up for use by customers, from cycle 1707.

Customers who have already upgraded their FMS to these versions may switch their subscription from GPE to PRE, GPW to PRW and GPR to PRR databases respectively. This subscription switch does not incur any costs. The software part Numbers are available in the bottom line of the initialization page in the FMS. Please contact [dsa@honeywell.com](mailto:dsa@honeywell.com) to subscribe to the correct database.

**Best Regards,  
Aviation Services**
